decline.

In addition to the crop developments, the day's news was a jumble of inance, politics and trade conditions. Weekly returns from the leading inancial institutions of Europe were interesting in that all were favorable. The Bank of England maintained its minimum discount rate and its total reserves were larger by \$2,500,000 than the previous week, even though its proportion of reserves to liabilities was lower. Bank clearings for the week at the British metropolis increased about \$85,000,000, compared with the same week last year, indicating a keen demand for money at that centre. The German Bank showed further large gains in gold, and even larger gain in cash on hand a substantial reduction in loans. The Bank of France reported a very large increase in streulation and a moderate increase in its gold holdings. Europe was something of a factor here throughout, reports crediting London, Peris and Amsterdam with moderate sales.

Politically the outlook had become In addition to the crop developments.

Europe was something of a foctor here throughout, reports crediting London. Peris and Amsterdam with moderate sales.

Politically the outlook had become more confused according to the wait Street viewpoint, by reason of the proposed tariff revision and forceasts of the early actions in New England, which are believed to be gard Declinations by the Illinois coal operators of the wags scale offered by the miners was the only discordant note sounded in the field of labor. The grain markets were strong, following the rise in corn, and reports of unsettled weather in England and France.

Foreign exchange showed no change from the previous day, but the understone was firm, with a small supply of bills offered. Local banks reports strictly of the way aggregating \$1,316,000. Time money worked harder for medium periods, and no importance would attach to this development, but for the uncertainty over the political situation. Of the day's ratiroad returns that of Atchison for July was most satisfactory, for, while operating expenses increase of fully il per cent. While for the third week even roads have already reported gains, indicating a gross increase of fully il per cent. Chesapeake and Ohio directors declared the regular quarterly dividend, thereby dispelling certain misgivings in that quarter, and authorized a denial of rumors of a "merger" with the Gould roads.

The bond market was heavy in sympathy with stock, 200 and sales, party with the Gould roads.

The bond market was heavy in sympathy with stock, 200 and sales, party with the Gould roads.

Quotations for interest-paying bonds are at a price, to which interest must be added. Income bonds and certificates of indebted-ness are flat.

COTTON MARKETS,

COTTON MARKETS.

New York, August 25.—There was a continuation of local selling in the cotton market during to-day's trading and prices eased off in the absence of any important support, with the close barely steady at a net decline of 10g16 points. The market pened steady at an advance of 2g3 points on somewhat botter cables than expected, but almost immediately turned casier, as here was no important buying power fround the ring and as local professionals typeared bearish, partly because of the absence of bull support, partly because of the approaching new crop movement, and partly nexpectation of a break in the Southwestern drought.

Offerings were not heavy, and after active nonths had sold about 5g8 points lower here was a slight rally on covering, but here seemed to be very few buyers who ared to follow the market up, and later prices turned easier again, when rumors ver received that it was raining in Texas. Josing prices were at the lowest of the lay. The weather map showed lower temeratures at Okiahoma, and it looked as hough a cold wave was working down rom the Northwest, in parts of which comperatures were very low, but it was vidently considered too early in the senon for Jany such cold snap as might it. ge cotton, while the outlook appeared avor some relief from recent excessive eat. Southern spot markets officially mached early were unchanged to be chight.

timent, 2,500,306; to Japan, 25,531; to Mexico, 13,555.

New Orleans, La., August 25.—Spot cotton I steady unchanged; sales on spot, 110 baies; middling, 15c.; to arrive, 100 bales.

The market was dull and easy throughout the morning session, with no reserve power at all. The outside public held off and professional traders, even on the buil side, were not included to offer any support. With sentiment turning as it was, the talk about the rains in Texas increased the selling, aithough according to official forecasiers, these expectations were not well founded. Commission houses warned their customers that rain in Texas, if soon, would cause a break, but would almost certainly be followed by a rise when the effect of the rain on the open cotton was realized. This resulted in keeping the public from going short. In the trading up to 3 o'clock the active months were sent to a level of 10 points under yesterday's final quotations. The close was quiet at a net decline of 769 points. Closing blds: August, 15-9; September, 13-73; October, 13-33; December, 13-73; January, 13-32; March, 13-43, May, 13-52.

MISCELLANEOUS MARKETS.

DRY GOODS MARKET.

New York, August 25.—There was a steady demand for cotton goods noted on the primary market during the day, Buyers paid the price asked by mill agents without quibble, but confined their purchases almost entirely for prompt delivery. The jobbers did a good business in cotton goods, but the size of individual orders continued rather small. Shirting sateens are moving treely. Lew count goods have the cull and converts are solling at close figures. The market on finished cotton goods held very lim.

Trude Report.

Bradstreet's Saturday will say for Richmond and vicinity:

Trade in general is irregular, some lines showing fair activity, white others are quiet, and beneath all there appears to be a slight feeling of uneasiness without apparent cause. Fair orders for future shipments of shoes, rubber goods, hats, caps, clothing and kindred lines are being received. Drugs and chemicals continue active. Navai stores are firm at recent prevailing prices, Produce and fruit are plentiful, but the demand is dull. Dry goods are quiet. Building continues active, giving good demand for hardware and builders' material. Trade on the retail markets is quiet and "mark down" sales are noted to be numerous. Collections are slow and banks find ready demand for available funds.

Crop Report.
Cotton continues in fair condition,

demand for available funds.

Crop Report.

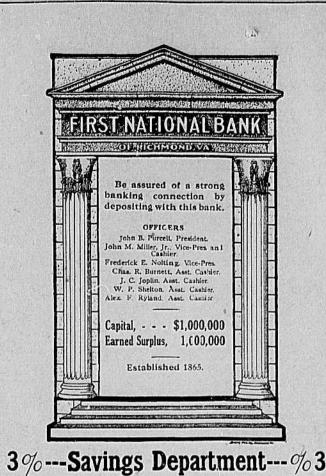

Cotton continues in fair condition, but a full crop has not been expected since the early unfavorable weather. Tobacco is being marketed in North Carolina at fair prices, the corn crop heing reported improved. Vegetables are dinusually plentiful and of excellent quality.

Take them on your trip. American National Bank Richmond, Va.

IRGINIA TRUST CO. 922 E. MAIN ST., RICHMOND, VA.

CAPITAL ONE MILLION DOLLARS

Ten years ago this Company was appointed substitute trustee of a large estate. In the hands of an individual it had suffered greatly, and the income had declined until it was barely sufficient to maintain the beneficiaries.

To-day the income is more than three times as great as it was when this Company came into control.

One of the beneficiaries recently said to us: "I am not only pleased with your management of our estate, but I would advise any one creating a trust to place it in the hands of the Virginia Trust Company."

What has been accomplished for this trust, can be done for others.
